Owing to its broad spectrum and high-caliber line-up of speakers, the ORCHEM conference is one of the most attractive organic chemistry conferences in Germany for academic and industrial chemists. It caters for young researchers and students as well as established professionals. An important feature of the ORCHEM programme are poster sessions where young researchers can present their latest results and discuss these with leading experts.

The city of Berlin will host the 21<sup>st</sup> ORCHEM in 2018.

Berlin – Germany's capital with a unique history  
 Berlin – the place to be for art and culture  
 Berlin – the place to be for science  
 Berlin – the place to be for the ORCHEM 2018

The ORCHEM 2018 lectures will cover the following areas:

- **Understanding reaction mechanisms**
- **Developing synthetic methodology**
- **Building complex molecules**
- **Applying molecules in the material and life sciences**
